

MUKUL CHOUDHARY

BACKEND ENGINEER

+91 75053 02688 | chmukul2002@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Backend Engineer with 2.9 years of experience designing, building, and optimizing scalable, high-performance applications using Node.js, Express.js, and TypeScript. Skilled in REST API development, real-time messaging, payment integration (Razorpay), product analytics (Adapty, Meta), and cloud services (AWS, Firebase, Elasticsearch). Currently building backend systems at Alyke, the world's first friendship app, with a strong focus on performance, scalability, and clean, maintainable code.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++

Frameworks & Libraries: Node.js, Express.js, React, Three.js

Databases: PostgreSQL, MongoDB, Firestore

Cloud & DevOps: AWS, Firebase, Elasticsearch, Redash, OTA Updates

Tools: Git, Postman, Swagger, VS Code

Core Competencies: REST APIs, Real-Time Systems, Microservices Concepts, Authentication (JWT / OTP), Payment Integration, Concurrency, Performance Optimization, Agile

Testing: Cucumber JS

PROFESSIONAL EXPERIENCE

Backend Engineer

Feb 2025 – Present

XVISION IT Pvt. Ltd. (Alyke)

Noida, IN

- Developed and optimized the backend of Alyke, the world's first friendship app, improving performance and user experience through code refactoring and bug fixes.
- Integrated Adapty, OTA updates, and Redash to streamline deployments and improve tracking of user interactions for data-driven insights.
- Implemented real-time messaging using Firestore and AI (ChatGPT) for a seamless chat experience, leveraging Node.js and Firebase for a scalable backend.

MERN Stack Developer

Jun 2024 – Feb 2025

The Bharat Scouts and Guides

New Delhi, IN

- Built and deployed BSG Shop, enabling product browsing, cart management, Razorpay integration, and secure checkout.
- Optimized the codebase for improved performance, resulting in faster API response times.
- Developed dynamic features such as order tracking by integrating the Indian Post Office API.
- Built an interactive Handwashing web app to promote hygiene awareness through engaging content.

Software Developer

Aug 2023 – May 2024

Zen Software Solutions Pvt. Ltd.

Noida, IN

- Developed and maintained web applications, including the HMD project, using React.js, Node.js, and MongoDB.
- Built an account management portal with bank API integration using React and Node.js.
- Optimized the application codebase for improved performance and efficiency.

Software Development Engineer Intern

Jul 2021 – Aug 2021

Adivitiya, IIT Ropar

Remote

- Designed and developed a gym management system with React and Node.js, streamlining member management and operational efficiency.

PROJECTS

Real-Time Chat Application | *React, Node.js, Express, MongoDB, JWT, Twilio*

- Built a scalable backend with Node.js, Express, and MongoDB, handling 100+ active user chats per second.
- Optimized database transactions to resolve race conditions and handle concurrency, ensuring 100% data integrity during simultaneous chats.
- Implemented OTP verification via the Twilio API, processing 1,000+ OTPs daily with a 95% success rate.

Hospital Management System | *Node.js, Express, MongoDB*

- Developed a web application to manage hospital operations, including patient records, doctor schedules, and appointment booking.
- Built a backend server with Node.js and Express to perform CRUD operations on patients, doctors, and appointments.
- Used MongoDB for efficient data storage and management.

EDUCATION

Bachelor of Technology, Computer Science & Engineering

Maharana Pratap Engineering College

Dec 2019 – May 2023

Kanpur, IN

ACHIEVEMENTS & CERTIFICATIONS

- Awarded Best Project during internship at Adivitiya, IIT Ropar.
- Completed TCS iON Career Edge – Young Professional certification.
